SAVE \$128 INSTANTLY

THE ULTIMATE CREATOR BUNDLE

Get your free copy of iZotope's award winning RX Elements and their game-changing new Voice Enhancement Assistant — VEA — with the purchase of any eligible Earthworks Audio vocal microphone.

SOUND BETTER. FASTER. EASIER.

VEA

VEA is an AI audio enhancer for content creators and podcasters that takes any voice recording and makes it sound more professional. Powered by the industry-leading audio enhancement technology of RX, Ozone, and Nectar, VEA increases clarity, sets more consistent levels, and reduces background noise.

RX ELEMENTS

RX Elements' Repair Assistant plug-in makes short work of audio restoration — clipping, clicks, and more — without the usual tedious trial-and-error workflow. All you need to do is select the type of material, be it music, dialogue, or other, and let RX Elements analyze the audio.

To get both your VEA and RX licenses, simply email info@earthworksaudio.com with your receipt along with your microphone's serial number and we will send you your codes and download instructions.

GET YOURS

Eligible microphones include the Earthworks Audio SR117, ETHOS, ICON, and ICON PRO. Eligible purchase dates range from 1/17/2024 - 12/31/2024.
